RE: GN Docket 11-65

Dear Chairman Genachowski,

Wired Wisconsin is a non-profit coalition made up of consumers, businesses and organizations dedicated to the future of technology in Wisconsin. Since our inception three years ago, we have tirelessly advocated for enhancing and extending broadband access throughout the state by encouraging private sector investment in this critical infrastructure.

I write today on behalf of our consumer members and 29 organizational partners to encourage you to fully support the merger of AT&T and T-Mobile. This merger will enhance and improve access to broadband, which will bring many benefits to the residents of Wisconsin.

Additional access to high-speed Internet means more and better health care options and services, increased educational and employment opportunities for Wisconsin residents, and limitless potential for the growth and expansion of businesses in our state.

Please carefully consider all of the positives that come along with this merger and join Wired Wisconsin in supporting this acquisition for the benefit of our state's citizens and all Americans.

Respectfully,

Thad Nation
Executive Director
Wired Wisconsin

CC: Commissioner Michael J. Capps
Commissioner Robert M. McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker

Wired Wisconsin is the Wisconsin-based project of Midwest Consumers for Choice and Competition (MCCC), a non-profit organization of individual consumers interested in technology, broadband, and telecommunication issues with state projects throughout the Midwest region. The project will work to support an environment for innovative technology, high-tech job creation, and economic growth. Wired Wisconsin will seek to educate consumers, policy makers, and businesses about technology-related legislative and regulatory issues that impact our lives and advocate for common-sense approaches to spur innovation and grow the economy.
